

General

At the end of a turn in which you overcome a hurdle, do you add a Cloud to the Final Challenge?

No! You've kept danger at bay for another turn!

What happens when a Location is discarded while players are still present at that Location?

Any players return to the central Location before drawing a new Location to replace the discarded one.

What is the Cloud icon under the resources provided by some cards?

Cards with that icon add the number of Cloud specified to the current Hurdle or Final Challenge. This happens both when you play them on your turn, or when you contribute them to overcoming Chaos on any turn.

Do you replenish your hand after contributing cards to overcome a Hurdle as the non-active player?

No, you have to play your turn with what you have! Helping out can be a sacrifice.

Do you have to play all the cards in your hand, even if you do not want some of their effects?

No, if you do not want to play a certain card or cards for whatever reason, you are never obligated to do so. However, at the end of your turn before drawing a new hand, you do discard any cards remaining unplayed in your hand.

Repeatable tasks never get task tokens, so how often can they be repeated?

Only once per turn.

If a Situation is in the right-most slot of the Adventure Row and no cards are removed from the Adventure Row in a turn, is the Situation discarded?

Yes! If you can weather the situation till then, it is discarded.

Core Set

Do the Pet cards (such as Opalescence) which have an effect referring to a specific Pony do anything when the named Pony is not in the game?

That portion of their text has no effect, however, the rest of the card still works. For example, Opalescence provides 3 Help and would count if you needed to Discover Allies or Pets, even when Rarity is not in the game.

Familiar Faces

Some Locations, such as Discord's Place, have a repeatable task, preventing you from ever placing 3 Task tokens on them. When would you discard this type of Location?

You ignore the repeatable tasks for purposes of deciding when a Location is discarded. When all the non-repeatable tasks have tokens, the Location is discarded.

True Talents

Can Refashioning the Adventure Row be used with other sets?

Yes, it is a good way to make Info more useful and works with any set.

Collision Course

Why is Lord Megatron a level 4 Final Challenge?

He isn't a nice guy. But Princess Celestia believes in you.
